

Joint Research Management Office

Quality Management System Quality Objectives

1. Commitment to the continual improvement in the effectiveness of the Quality Management System (QMS), monitoring the effectiveness through an internal review schedule and JRMO staff surveys.
2. To confirm research compliance with the QMS across Queen Mary and Barts Health, with assessment through non-compliance monitoring
3. To ensure the QMS meets all legislative requirements.
4. To provide support and enable research studies within Barts Health and Queen Mary; achieving the highest scientific standard.
5. To embed quality control and quality assurance procedures in all areas of research.
6. To maintain and disseminate organised, structured and current documentation; readily available for all JRMO staff and researchers.
7. To ensure all JRMO staff are suitably trained for their roles and continued professional development is encouraged, reviewing staff training records in relation to compliance with the JRMO mandatory and in-house training requirements.
8. To maintain a meeting schedule to review the QMS Quality Objectives
